## TECH STACK & HOSTING REQUIREMENTS

---

- Framework: Next.js 14 (App Router) with TypeScript
- Styling: Tailwind CSS
- Animations: Framer Motion
- Icons: Lucide React
- Fonts: Google Fonts (use "Cormorant Garamond" for headings — elegant, tailoring-appropriate; "Poppins" for body)
- Hosting Target: Brazil-based server (self-hosted or managed hosting like DigitalOcean Brazil region, Linode São Paulo, or local Brazilian provider)
- Database: PostgreSQL (local or managed — Supabase works in Brazil region)
- Payment / Order Flow: NO payment processing on site. Instead, orders trigger email + WhatsApp notifications to Sharon with customer details and item info
- Email Service: Nodemailer or SendGrid (free tier, configured for Brazil)
- WhatsApp Integration: WhatsApp Business API or Twilio (sends order notifications to Sharon's number: +256 705 241 179)
- Must be fully mobile-responsive (works on Android & iOS browsers)
- Must pass Lighthouse score of 85+ on Performance
- Use static generation (SSG) for product pages where possible

## DESIGN DIRECTION

---

Aesthetic: Elegant Bespoke Tailoring — soft cream (#F5F1E8) background with deep charcoal (#2C2C2C) and rose gold (#D4A574) accents. Think luxury fashion atelier meets modern e-commerce. Sophisticated, timeless, inviting.

```
--color-bg: #F5F1E8
--color-surface: #FFFFFF
--color-dark: #2C2C2C
--color-accent: #D4A574
--color-accent-light: #E8C9A8
--color-text: #2C2C2C
--color-text-muted: #6B6B6B
--color-border: rgba(212,165,116,0.2)
```

Typography:

- Headings: "Cormorant Garamond", serif — elegant, 700 weight
- Body: "Poppins", sans-serif — 16px base, 1.6 line height
- Labels: letter-spacing: 0.1em, text-transform: uppercase, font-size: 0.8rem, font-weight: 600

Motifs:

- Subtle rose gold left-border on featured items
- Thin rose gold horizontal dividers between sections
- Soft shadow on product cards (shadow: 0 4px 12px rgba(44,44,44,0.08))
- Smooth fade-up animations on scroll (Framer Motion)
